Bank Transfer

To enable us to keep track of direct bank transfers we have a page on the website that makes the process a lot easier. Simply go to the website link below.

You'll find all the bank account details there, and after you've made the transfer, simply fill in the details requested. There is no need to send this form to us.

Credit Card

The only way we accept credit card payments is online. To pay online you will need a Payment Code, which you should have already been given. If you have not, it may be because payment is not expected immediately, in the case of a trip for example. If you have a Payment Code, go to the website link below.

If your local currency is not Pound Sterling, please see the information box below. There is no need to send this form to us.

PLEASE NOTE: Even though we are using PayPal for our online transactions, you **DO NOT** need to have a PayPal account to use it.

FOR THOSE WHO DO NOT USE POUND STERLING

All credit card and direct bank transfer payments need to be made in Pounds Sterling (£). Therefore when paying you will need to use the Sterling costs. The conversion to your local currency will be made by your credit card provider or bank at the exchange rate set by the provider at the time of the transaction.

Therefore the final amount that you will be charged may not exactly match the local currency amount due to exchange rate fluctuations and the varying rate of the provider. It could be a little more, or even a little less than the local currency amount shown.
